Committee
March 6th, 2025

WHAT IS IT?

- 12 unit supportive housing Centre
 - staff and supports on site
 - transitional lease up to four years
 - harm reduction focus housing
 - goal oriented support
-

SUPPORTIVE HOUSING

Affordable: Supportive housing provides affordable living options, ensuring that residents can maintain their housing stability through rent subsidies and income-based payments.

Support services: It offers a range of essential services, including mental health counseling, substance abuse treatment, employment assistance, and case management, designed to address individual needs.

Community integration: fostering social inclusion and interaction, reducing stigma, and creating a sense of belonging for residents.

MISSION

An innovative approach to addressing homelessness and improving the well-being of vulnerable individuals. It combines affordable housing with essential support services for people who are experiencing homelessness, struggling with mental health issues, or facing other challenges.

Supportive housing is not just a place to live; it's a holistic solution that helps people regain their independence and rebuild their lives

HIGHLIGHTS

2022

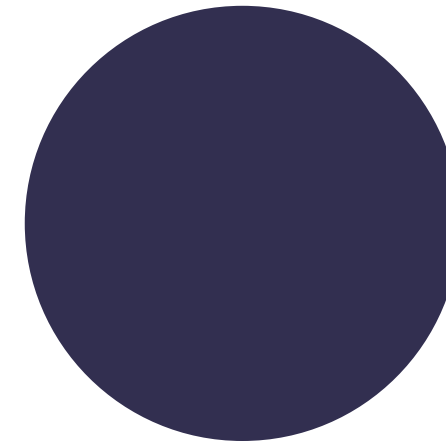

Purchased by Grey County

2023

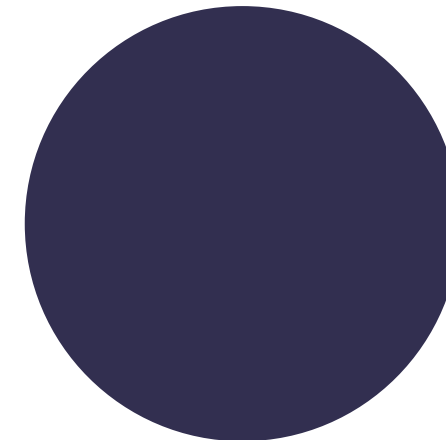

The building opened in November
2023
